a Uncalibrated model score (primary)
intercept -2.45
slope 1.07
Brier 0.1632
ECE 0.269
Observed proportion (Wilson 95 % CI)
Predicted probability (decile mean)
b Platt-recalibrated probability (primary)
intercept -0.04
slope 1.16
Brier 0.0622
ECE 0.011
Observed proportion (Wilson 95 % CI)
Predicted probability (decile mean)
c Decision-curve analysis
Primary, internal test
Test everyone, internal
ECG-only, external
Test everyone, external
Test no one
Net benefit
Threshold probability for referral
